recharge soon

KULUMI Mini can be recharged via:

1. The built-in 0.7W solar panel (typical charge time is 10 to 12 hours in full sunlight).
2. Any USB 5V @1A power adapter / 5V@1A source using the supplied 500mm Micro USB charging cable (typical charge time is 2 hours).

Battery:

- Standard battery size:
3.7V / 2000mAh Li-ion battery
- 500 to 1000 charge cycles
- 5.5h to 45h of use
- Alternative order option: 3.7V / 4000mAh Li-ion battery

Package:

KULUMI Mini x 1
AUX Cable x 1
Micro USB Cable x 1
Size: 136x82x33mm
(5.35"x3.21"x 1.29")
Weight: 195g (0.429 lbs.)
AUX Cable: 800mm (31.5")
Micro USB Cable: 500mm (19.7")

WARNING!

- Do not use product near fire or in a high temperature area.
- Do not soak the product in water or other liquids.
- Do not disassemble, alter or apply heat to the product.
- Recommended Operating Temperature: 0°C to 45°C (32°F to 113°F)
- Recommended Storage Temperature: -10°C to 60°C (14°F to 140 °F)
- Low temperatures (<-10°C / 14°F) or high temperatures (> 45°C / 113°F) will shorten the battery life.
- Warning: Batteries should not be exposed to excessive heat such as fire or similar.
- To prevent possible hearing damage, do not listen to high volume for long periods of time.

Please be conscious of the environment and dispose of the Li-ion battery responsibly.
